Memo to File:

RE: Inspection of Atlas Minerals
Probe Mine
ACT/015/011
Emery County, Utah

On May 15, 1984 members of the Division Tom Tetting and Susan Linner inspected the Probe Mine site briefly. No representative of the Company was on hand. The mine has been shut down since January 1982. The inspection was performed in accordance with Rule M-7 of the Mined Land Reclamation Act, (inspection of operations suspended for longer than two years). There were no apparent problems and no active mining or discharges were observed. A recommendation is made to continue the suspension for an additional two year period.

Thomas N. Tetting
